SUMMARY

Final-year Computer Science Engineering student passionate about Data Analytics. Proficient in Excel, SQL, Power BI, and Python, with hands-on internship experience in data analysis. Quick learner with strong analytical and problem-solving skills, seeking an opportunity to contribute to a data-driven organization while enhancing professional expertise.

Technical Skills

- **Programming:** Python, SQL
- **Data Analysis:** Microsoft Excel, Power BI
- **Database:** MySQL
- **Visualization:** Power BI, Excel Charts
- **Web Technologies:** HTML, CSS, JavaScript
- **Design Tools:** Figma, Canva

PROJECTS

• Used Bike Sales Analysis Dashboard | Microsoft Excel

Tools: Microsoft Excel, Pivot Tables, Pivot Charts, Slicers

- Developed an interactive Excel dashboard to analyze used bike sales data.
- Performed data cleaning and created additional calculated fields (Price Category, Age Group, and KMS Category).
- Built Pivot Tables and Pivot Charts to analyze sales by brand, city, owner type, and price category.
- Designed KPI cards to track total bikes, average price, and other key metrics.
- Enabled interactive filtering using slicers for dynamic business analysis.

GITHUB: Used Bike Sales Analysis (Excel)

• UPI Payment Apps Review Analysis | MySQL

Tools: MySQL, Microsoft Excel

- Developed a SQL-based data analysis project using Google Play Store reviews of Google Pay, PhonePe, and Paytm.
- Performed data cleaning in Microsoft Excel by removing duplicates, handling missing values, and standardizing the dataset before importing it into MySQL.
- Wrote SQL queries using SELECT, WHERE, GROUP BY, HAVING, ORDER BY, Aggregate Functions, Subqueries, Window Functions, and Views to answer real-world business questions.
- Analyzed customer ratings, review trends, user engagement, developer responses, and application performance to generate actionable business insights.

• Netflix Content Analysis Dashboard | Microsoft Power BI

Tools: Microsoft Power BI, Power Query, DAX, Excel

- Developed an interactive Power BI dashboard to analyze Netflix's content library of over 8,800 titles.
- Performed data cleaning using Power Query by removing duplicates, handling missing values, and creating derived columns.
- Built KPI cards and interactive visualizations to analyze Movies vs TV Shows, genres, countries, ratings, release trends, and content distribution.
- Created DAX measures and slicers for dynamic business analysis and reporting.

• Adidas Sales Analysis Dashboard | Microsoft Power BI

Tools: Microsoft Power BI, Power Query, DAX, Data Modeling

- Developed an interactive Power BI dashboard to analyze Adidas sales performance across regions, states, cities, retailers, products, and sales methods.
- Performed data cleaning and transformation using Power Query to prepare the dataset for analysis.
- Created DAX measures and KPI cards to track Total Sales, Operating Profit, Units Sold, Total Retailers, and Total Products.
- Built interactive visualizations including bar charts, pie charts, funnel charts, and slicers to provide business insights.
- Designed a modern dashboard to analyze sales trends, product performance, retailer performance, and regional sales distribution for data-driven decision-making.

• DIGITAL NOTICE BOARD FOR SSM COLLEGE OF ENGINEERING | FLASK WEB APPLICATION

Tools: HTML, CSS, JavaScript, Python (Flask), SQLite, Flask-SQLAlchemy

- Developed a web-based Digital Notice Board to manage and display department-wise notices through a secure admin panel.
- Implemented CRUD operations (Add, Edit, Delete) and file upload functionality for efficient notice management.
- Integrated SQLite database using Flask-SQLAlchemy for secure data storage and retrieval.
- Designed a responsive and user-friendly interface with real-time notice updates for students and faculty.
- Implemented an authentication-based admin system to ensure secure access and efficient content management.

EDUCATION

Bachelor of Engineering

SSM College Of Engineering

- Major in Computer Science Engineering
- CGPA: 7.8

Sept 2023 – Present

School Education

Government Higher Secondary School

- Percentage: 64%

Jun 2016 – March 2022

INTERSHIPS

INTERSHIP-INZOVATE TECHNOLOGY(PRESENT)

- Currently pursuing a Data Analyst Internship at Inzovate Technology, gaining hands-on experience in Microsoft Excel, SQL, Power BI, data cleaning, data visualization, and business data analysis through real-world projects.

INTERSHIP-WSPL

- Completed a 15-day Full Stack Development Internship at Wspl Hosting Solution (OPC) Private Limited from 11 September 2025 to 24 October 2025. Acquired practical knowledge in front-end development, teamwork, problem-solving, and software development practices through hands-on training and real-world tasks.

CERTIFICATES

IP-to-IPO Innovation Competition

- Participated in the IP-to-IPO Innovation Competition organized by Anna University, enhancing innovation and entrepreneurial skills.

Oracle Cloud Infrastructure 2025

- Earned the Oracle Cloud Infrastructure 2025 Certified Foundations Associate certification, validating foundational knowledge of Oracle Cloud Infrastructure and cloud computing.
